The BoQ for the work under Item No. 5.7.2.1.3 (Construction of separate LT Feeder to bifurcate from 11kV Composite line at Langchenphu) under sub-item No. 5.7.2.1.3.1(LV ABC line, 4 core 50sqmm with existing steel tubular pole) has been made in the BPC eProcurement website-SAP Ariba as "LV ABC line, 4 core 50sqmm" Kindly note that LV ABC line will have to be constructed with new LV poles using dismantled LV ABC cables and not using existing steel Tubular Poles.

Yours faithfully,
